

THE NEW YORK LANDMARKS CONSERVANCY  
**CHAIRMAN'S AWARD**

**The Metropolitan Club**  
June 5, 2024

## About the Award

The New York Landmarks Conservancy inaugurated the Chairman's Award in 1988 to recognize exceptional individuals, organizations, and businesses that have demonstrated their dedication to protecting New York's architectural legacy.

## About Us

The Landmarks Conservancy's singular mission for more than 50 years has been the protection of New York's built environment – from the iconic buildings that define the City's spectacular skyline to the diverse neighborhoods where we live, work, worship, and play.

We are a strong voice for sound preservation policies. We are also the only organization that empowers New Yorkers with financial and technical assistance to restore their historic homes, cultural, religious, and social institutions. Our grants and loans of \$62 million have mobilized more than \$1 billion in some 2,000 renovation projects throughout the City and State, revitalizing communities, creating economic stimulus, and supporting local jobs.

While most of our work is with individual homeowners and other nonprofit organizations, our achievements have included such high profile projects as the Alexander Hamilton U.S. Custom House, Moynihan Train Hall, Fraunces Tavern block, Federal Archive Building, Astor Row, Ellis Island, and the Survivors' Staircase at Ground Zero.

# Fifth Avenue Association

The Fifth Avenue Association, founded in 1907, works to maintain Fifth Avenue as the most iconic street in the world. On Fifth Avenue's 200th Anniversary, we are honoring the Association for sustaining Fifth Avenue as a dynamic space of beauty, culture, architecture, history, and commerce.

The Association maintains an annual calendar of public displays and programming and is helping to plan public realm improvements to make strolling the Avenue even more enticing and enjoyable.

## **FIFTH AVENUE ASSOCIATION**

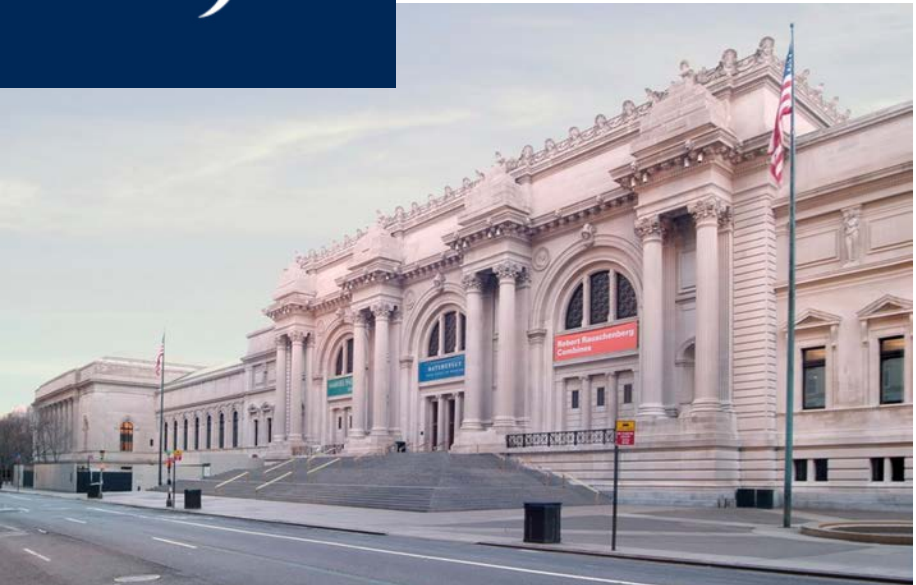

# WJE Engineers & Architects, PC

WJE was established in 1956 and became an internationally based, interdisciplinary powerhouse. Their mission is to make a positive difference in the world and consistently deliver practical, innovative, and technically sound solutions.

We are honoring their New York office for projects that include the American Museum of Natural History, National September 11 Memorial, Metropolitan Museum and New York Public Library. The firm's architectural practice began in the 1970s with terra cotta restoration of the Woolworth Building.

# The Woodlawn Cemetery & Conservancy

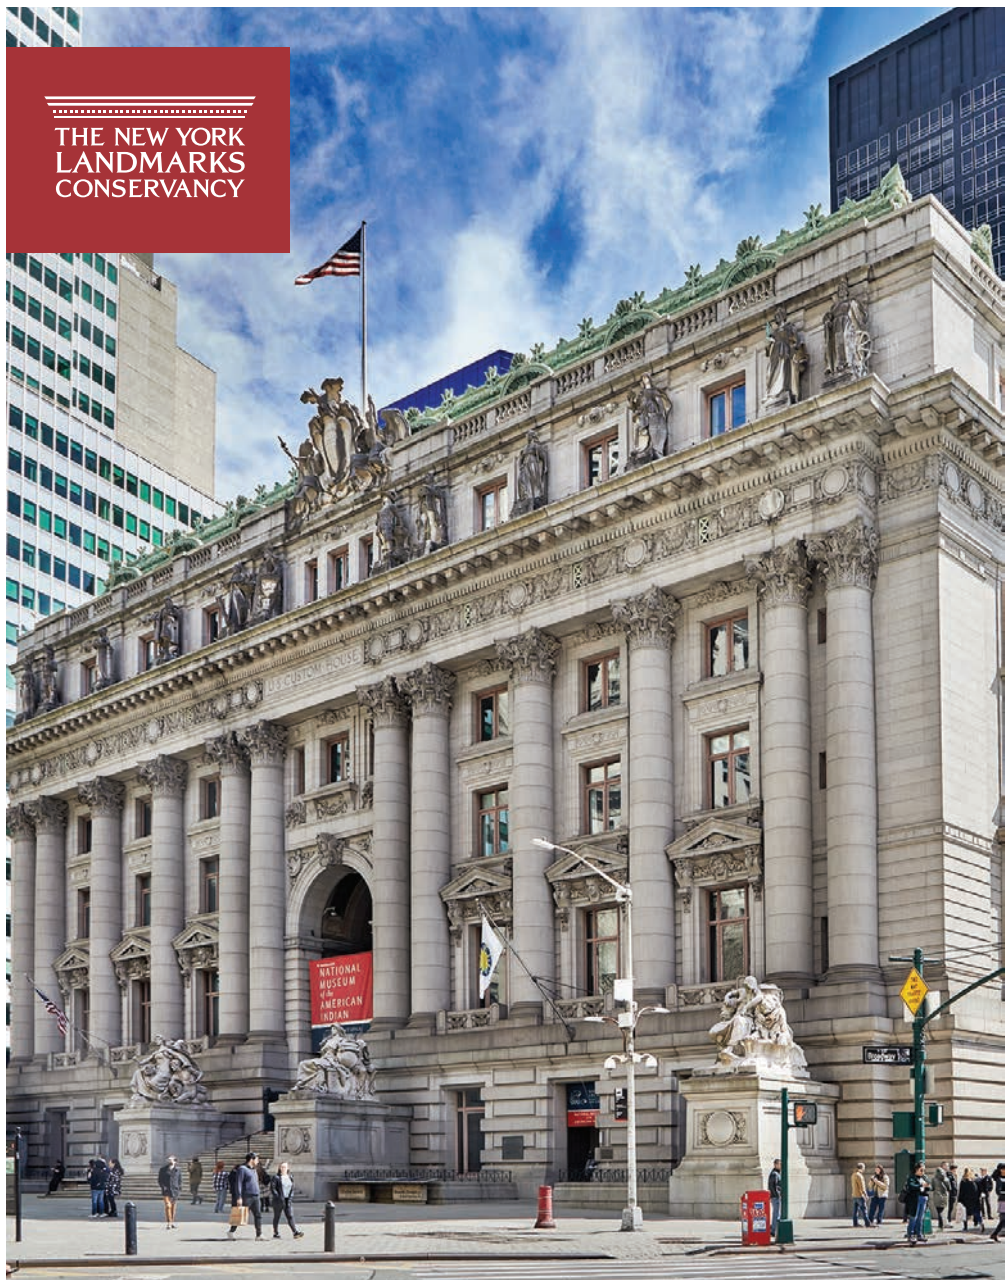

Established in 1863, Woodlawn is an active, 400-acre non-sectarian cemetery. An oasis in an urban setting, it attracts more than 100,000 visitors from around the world each year. A National Historic Landmark, it is distinguished by memorials that “represent the largest and finest collection of funerary art in the country” and exceptional historic landscaping. The Conservancy works to maintain the history and beauty and helps to train the next generation of conservators and builders who will understand how to preserve historic architecture.
